

SÄLZER Steel Gates

Individual Security

Steel Gates – Reliable Day-to-Day

Gates have to protect the gateways against unauthorized access as well as to assure smooth flow of the traffic.

SÄLZER steel gates prove themselves day-by-day.

They are weatherproofed, even under constant load they are extremely robust as well easy to use, independent of the gate size!

Every SÄLZER security steel gate is individual designed and produced based on the special requirements of the customer, because individual security needs require individual solution. There is almost no loss in the vertical clearance and width because of the narrow framework. Of course all gates have corresponding gate drives.

SÄLZER security steel gates offer not only the maximum of security but also an unlimited range of designs and colors!

SÄLZER security steel gates offer not only the maximum of security but also an unlimited range of designs and colors:

- » Swinging gates
- » Sliding gates
- » Folding gate
- » Gates with bars
- » Single or double and with sectional door available.

Galvanized, primed, powder coated or painted. Cladded with various materials such as wood, stainless steel, bronze and more.

Protection Categories

- » Forced entry and break out resistance on request.
- » Bullet resistance according to DIN EN 1522+1523 up to FB7 NS.
- » Blast resistance according to customer requirements.
- » Ram protection according to customer requirements.

SÄLZER steel gates can be combined for an optimal vehicle separation as sally ports with a second steel gate or with a grill gate.

Drive and Control System

Different electro-hydraulic and electro-mechanic drives can be chosen.

The control system of the gate can be integrated into the general facility management system.

Easy access by the sectional door.

Double sliding gate, roller rail on the top.

SYSTEM SÄLZER®

Combined protection

For more than 40 years SÄLZER has led the industry in the development and technology of forced entry, bullet, fire and blast resistant building components.

Each of our products is subject to a strict internal and external quality management.

Please ask for additional brochures about our further products: windows, facades, doors, gates, guard houses, partition walls, access control, barriers, bollards, accessory components etc.
